"Follow The Peaches To The Park" on August 28

That Will Be Only One of the Numerous Things to Do When the Annual Ulster County Picnic Will Attract Thousands of Kingstonians and Visitors to City's Principal Playground.

No flamboyant decoration of road. Views will be used this year in advertising the Chamber of Commerce and Farm and Home Bureau picnic, to be held in Forsyth Park on Friday, August 28. Cards to be displayed inside stores will be distributed, but the committee decided that roadside signs would not be used, as the Farm Bureau favors the prohibition of gaudy blots on the face of nature and practices what it preaches.

All of the booths at the picnic will be in the pavilion, making it much easier to take care of the crowd that always surrounds the refreshment stands. All games will be finished by 3:30, at which time the State Troopers will give an exhibition of riding. This will take place on the bottom of what in winter is the skating pond, so that it may be viewed from the shaded hillside where there are plenty of rocks to climb or get behind in case any of the horses become obstreperous.

STATE TROOPER HAS EXCITING NIGHT.

Sergeant Kerwin, of the state motor vehicle squad of inspectors, had a strenuous night, says the Catskill Mail. On his return about 2 o'clock Wednesday morning from Roughneck, where he had been called in a headlight drive in which many inspectors took part, he saw a car overturn near Kingston, but no one was hurt. The driver was returning to Kingston from Catskill and the gates at the railroad crossing were down. The motorist said he did not see the red lights on the gates, and the watchman swung a flashlight.

The driver applied the brakes and the car skidded, and overturned. Sergeant Kerwin questioned the man to ascertain if he had been drinking, but could find no sufficient evidence on which to make an arrest.

Later the sergeant, while passing Glens, saw a Cadillac coupe on fire along the highway. The car, which bore the number 3H-86-22, was destroyed. The sergeant will locate the owner. The inspector also captured a runaway pony that was running along the highway and dragging a halter. He found the owner and turned his captive over to him.

LICENSE NO. 3H-86-22 WAS ISSUED TO CARMINO GRECO OF GLASCO.

MISSING SON OF WEALTHY LUMBERMAN PAWNED WATCH

By Telegraph to The Freeman. New York, Aug. 6.—Definite information that William Hamilton Mitchell, 24, Princeton graduate and son of a rich Buffalo lumberman, was in New York last Saturday and pawned his watch for \$75 was obtained here today. His father has offered a reward of \$500 for information as to his whereabouts.

J. MORTON MAYER, A PAWN-BROKER, DECLARED YOUNG MITCHELL CAME INTO HIS SHOP LAST SATURDAY AFTERNOON AND PAWNED HIS WATCH. HE SAID HE IDENTIFIED MITCHELL FROM ADVERTISEMENTS WHICH HIS FATHER HAD PRINTED. THE PAWNED WATCH BORE THE INITIALS "W. H. M."

"HE GAVE HIS NAME AS WILLIAM H. MORTON OF BUFFALO," MAYER SAID. MAYER ADDED THAT THE YOUTH'S FATHER IDENTIFIED THE WATCH AND RETURNED IT.

ANOTHER VICTIM OF POOL KILLER'S GUN

By Telegraph to The Freeman. Chicago, Aug. 6.—The gun that "Sam" loaded killed a pretty 18-year-old Chicago girl on the beach at South Haven, Mich., early today and killed an 18-year-old boy to flee. Ethel Shapiro was the victim. Sam Brown is being sought for the killing.

BLINKER SIGNAL ERECTED AT BROADWAY & MCINTOSH ST.

Wednesday the board of public works erected a blinker traffic signal at the intersection of Broadway and McIntosh streets.

Suppress Rum, But Not Dope

Dope Smugglers Especially Active on European Liners Arriving in New York—Narcotic Division Head Wants New Dry Force to Help Him.

By Telegraph to The Freeman. Washington, Aug. 6.—A nation wide survey of the dope traffic, details of which were made public today by Colonel L. G. Nutt, head of the narcotic division of the prohibition unit, disclosed heavy smuggling through New York.

Smuggling is chiefly charged to crews of European liners arriving in New York. Wiping out of rum row from the eastern seaboard has not appreciably lessened dope smuggling, according to the authorities, who said that rum runners do not fraternize with narcotic agents.

After presenting a picture of the illegitimate use of narcotics to General L. C. Andrews, prohibition czar, Colonel Nutt declared that the reorganized dry machine should lead strong cooperation in the suppression of the dope traffic.

Nutt's division will not be affected by the prohibition reorganization, it was learned. Reports from agents throughout the country indicate that smuggling from Canada and Mexico has been checked somewhat.

Sufficient facilities will be put at Nutt's disposal by Andrews to make a concerted drive on the dope smugglers in New York and in other cities where investigations of conspiracies to violate the Harrison anti-narcotic act are in progress.

Nutt said that the recently negotiated treaty with Canada has brought about excellent cooperation with that government. A notorious "master mind" of dope smugglers will be arrested soon as the result of action by the British authorities, it was said. This smuggler, badly wanted by the American government, fled to England after a series of successful operations on the northern border.

Illegitimate use of narcotics is on the decline, according to Nutt. Reports show that during the last ten months over 95 per cent of those arrested in federal courts for Harrison act violation have been convicted. The survey showed that heavier sentences for persons convicted are being passed by the courts.

Harry Saunders Improves Slowly

Harry Saunders, who is still seriously ill at the Benedictine Hospital as the result of being stabbed by Robert K. Hutton last Sunday, continues to improve and today his condition was reported as much better. Although still seriously ill he appears to be gaining. The doctors in charge of the case note marked improvement in his condition and unless complications set in due to the seriousness of the wound and his weakened condition he may eventually recover. The injury to the lung and extreme loss of blood followed by hemorrhages after he was admitted to the hospital for a time caused the authorities to believe he could not survive. However, it will take several days for the left lung to clear up and until that time there is danger of complications of a serious nature.

WHITNEY'S DAUGHTER GETS DIVORCE IN FRANCE

By Telegraph to The Freeman. Paris, Aug. 6.—Mrs. Frederick Tower of Philadelphia was granted a divorce from her husband today on the grounds of desertion.

Mrs. Tower, who was Flora Whitney, daughter of Mr. and Mrs. Harry Payne Whitney, was married to Frederick Tower in New York, April 13, 1920.

Stone Ridge Landmark Sold

The estate of the late Mary R. Lonsberry situated in the village of Stone Ridge, consisting of a large 10 room brick residence property and a nine acre tract of land, has been sold through the Davis & Miller real estate agency to George Bloomer of Haverhill, N. J.

Secures Position

Carmelo Dragotta, a graduate of the business department of Spencer's Business School, 225 Fair street, has been placed in a permanent position as bookkeeper and business clerk with the Walter Finance Corporation, 275 Fair street.

Dispute Size of Klan Parade

How Many Klansmen Will Take Part In Washington Parade Saturday Only Matter for Argument Now in Sight, but Police Take No Chances.

By Telegraph to The Freeman. Washington, Aug. 6.—The size of the K. K. K. parade down historic Pennsylvania avenue next Saturday was a subject of controversy and conflicting reports today.

L. A. Mueller, local Kleagle, said, there would be hardly more than 5,000 Klansmen in the line of march. The police, however, are preparing to handle a crowd of 25,000. Between 25 and 45 special trains will be run here, according to police information, some of them from such distant points as Columbus, Ohio; Buffalo, Jacksonville, Atlantic City, Erie, Pa., besides many nearby points in Virginia and West Virginia. The Pennsylvania road is reported to have arranged for 24 trains and the Baltimore and Ohio 15.

Under local regulations no masks or hoods can be put on their robes and hoods and march, but that is all. At least the police hope that will be all. They are taking no chances, however, and have ordered all reserves mobilized for the day.

Republicans Meet In Convention

County Convention at Kingston Opera House Friday to Transact Important Party Business and Designate Candidates for County Nominations.

The Republican County Convention of Ulster county will be held at the Kingston Opera House Friday for the purpose of recommending to the enrolled voters of the county candidates for the nomination for member of assembly, county treasurer, district attorney and coroner, also to recommend to the enrolled voters five delegates and five alternate delegates to attend the Republican Judicial District Convention to be held in and for the Third Judicial District for the purpose of nominating a justice of the Supreme court, and to recommend two members of the county committee in each and every election district of the county.

The meeting will be called to order at 11 o'clock and the morning session will be taken up with the designation of committee members. Nominations for the various county offices will not be taken up until after lunch.

No definite arrangements have been made for speakers at the morning session and the entire morning sessions will probably be taken up with the transaction of business.

Missing Chief Had Aphasia

By Telegraph to The Freeman. Cohasset, Mass., Aug. 6.—Chief of Police William H. McArthur, who mysteriously disappeared and who returned home after wandering aimlessly about in the woods near Easton, was in a serious condition at his home today.

Physicians said that the chief, who waged a relentless war on rum smugglers, probably suffered an attack of aphasia resulting from overwork. The chief collapsed upon his return home. A large posse was about to start out in search for him.

Democrats to Caucus Friday

Caucuses to elect delegates to the Democratic county and city conventions will be held Friday evening at 8 o'clock in every election district in the city and county. The city caucuses will also select candidates for nomination for supervisor and alderman of each ward.

The Democratic conventions will be held at the Kingston Opera House on Wednesday, August 12, at 11 a. m. The city convention will be held at the close of the county convention. The city caucuses will be held in the usual polling places used on election day.

FAIR TONIGHT AT THE DR. C. O. SAHLER PARK.

This evening at 8 o'clock the annual mid-summer fair held in the park of the Dr. C. O. Sahler Sanitarium will open, weather permitting. If stormy, the fair will be held the next fair evening. There are to be sales of fancy articles made in the Arts and Crafts shop and by the Lead-A-Hand Society, a grab bag, ice cream, cake, lemonade, home made candy, fortune telling, fancy ball dancing by one of the talented young ladies of the neighborhood and a side show, the mysteries of which will not be revealed until viewed by the curious. All are well come.

Business Certificate Filed

Aurelia Eckhardt of 11 Lucas avenue has certified to the Ulster county clerk that she is conducting a business at 275 Fair street, Kingston, under the name and style, "Harper Method Shop."

Millionaire Paid \$1,000 to Parents Of Cinderella

Browning Denies Stories of \$20,000 But Says Girl He Selected From Among 12,000 Applicants for Adoption Insisted He Give Parents \$1,000 for Her Sick Sister.

By Telegraph to The Freeman. New York, Aug. 6.—A threat by Welfare Commissioner Byrd S. Coler to investigate reports that Edward W. Browning, wealthy divorced real estate man, had paid \$20,000 to the parents of Mary Louise Spas, in connection with his adoption of her, today brought an admission from the Browning that he had paid the girl's parents \$1,000.

Coler, who criticized Browning's advertising campaign preliminary to the selection of Mary Louise from 12,000 applicants, said the procedure was demoralizing but that his department could take no action as the girl was not dependent.

"If it could be shown that Browning paid money to the girl's parents," Coler declared, "the matter would assume a different aspect and I probably should lay the whole matter before a grand jury."

Money Intended for Sister. Browning, in admitting he had paid the girl's parents \$1,000, said the money was given in \$500 checks, one to each parent. He said he did that at the instance of Mary Louise, who stipulated that the money was to be used for her older sister, Mildred, who is ill in a sanitarium in Denver.

The new development did not affect Mary's composure. She was up early today. Long before breakfast she was fussing around her sumptuous suite in Kew Gardens Inn.

Browning met her in the dining room. They were at ease during breakfast, apparently, although the curious gaze of 150 others were upon them.

New "Daddy" Is Emphatic. Mary Louise's millionaire "daddy" was emphatic in his denial of the publisher's story that he had paid \$20,000 to Mary's parents as the price for their consent to his adoption of their daughter.

"Moonshine—no truth in it," he said. "I did give a small gift. I don't believe in giving people who are not used to it large sums of money. It was only \$1,000."

Browning sharply replied to Coler's criticism of his adoption of the girl.

"This is my own affair," the tall, gray haired millionaire declared. "Everything was done in perfectly orderly, legal manner."

Will Give Girl a Chance.

"I don't care what people think. I am going to give this little girl a fine chance to get an education, to thrive and do well, as any young woman ever got."

At this Mary Louise gave Browning a sympathetic glance and a charming smile.

If Commissioner Coler can attribute any ulterior motive or immoral act to this transaction it is beyond me," Browning said.

Mary Made It Plain.

"Mary had made it perfectly plain to me that she wanted this money to go to her sister, whose condition is such that she needs cash. That is the reason I gave \$500 apiece to the father and mother. It was done at the urgent request of the girl I adopted."

Browning insisted the money was passed after the adoption had been completed.

Commissioner Coler said his office has been flooded with letters protesting against the action of Browning in adopting the girl.

"Most of these letters referred to this adoption as an immoral transaction. I consider it a highly immoral transaction. In the department of public welfare we do not allow a dependent child to be adopted by a divorcee or bachelor."

Promoted World Peace, Says Burton

Congressman Who Headed American Delegation to Geneva Arms Conference Summarizes Results—Congress Must Ratify Conventions.

By Telegraph to The Freeman. Washington, Aug. 6.—An important step in promoting world peace was accomplished at the recent Geneva conference for the control of traffic in arms. Representative Theodore E. Burton, who headed the delegation, declared in a statement today summarizing the results.

The conference adopted two conventions which the Senate will be urged to ratify at an early date in the next session of the congress. These are:

1. Publicity for shipment of arms, both export and import, and regulations of shipment of arms to less advanced countries, particularly portions of Africa, the Arabian peninsula, Palestine, Trans-Jordan, Syria, Lebanon and Iran.

2. A protocol prohibiting the use of poisonous gases in war.

This protocol was presented by the American delegation. It was accepted by 27 of the 43 nations represented at the conference.

Emmett O'Reilly, who ate toast stools, Will Soon Be Discharged From Benedictine—Other Patients Discharged.

Emmett O'Reilly, of Woodstock, who was taken to the Benedictine Hospital in a serious condition as the result of eating toast stools which he picked and ate along with mushrooms, today was reported out of danger and his condition much improved. He will be discharged from the hospital very soon. His condition at noon was reported as very much improved under the care of Dr. M. B. Dowder of Woodstock and Dr. Mark O'Neara of this city. The prompt attention which he received after being stricken undoubtedly saved his life.

Mr. and Mrs. Woltman, who were injured in an automobile accident Sunday at Big Indian, were discharged from the Benedictine Hospital Wednesday. They were attended by Doctors William J. and John C. O'Leary.

Air Mail Pilot Fractured Skull

By Telegraph to The Freeman. Bloomsburg, Pa., Aug. 6.—Harry A. Chandler, air mail pilot, who crashed into the Susquehanna river shortly before midnight, today was examined at the Bloomsburg hospital and found to have a fractured skull. When rescuers found him the pilot was pinned under a wing of his plane, barely able to keep his head above water.

Chandler was piloting a west bound mail plane when he lost his bearings in a fog. The 14 sacks of mail he carried were recovered, but were water soaked.

New Traffic Signs On City Streets

The board of public works had a gang of men at work this morning placing traffic signs on the business streets, to comply with the new ordinance in regard to parking which went into effect today. New street signs were also being placed on corners where the signs were missing.

Directors of Fuller Inc. At the annual meeting of the shareholders of James S. Fuller, Inc. of Kingston, Annie K. Fuller, Martha Fuller and Alice T. Watson were elected directors. The inspectors of election chosen were Judge James A. Betts and Clarence S. Rowland.

Mary Is 14, she said. So did Browning.

Neighbors Add a Few Years. But neighbors, who have known the Spas for years, place her age at from 14 to 20. They hint she even was engaged to be married before Browning adopted her.

Also, it was learned that the girl Browning adopted for his other nine year old ward, Dorothy Sunshine, is not the "poor girl" it was first thought she was. Her father, John Spas, owns or has an interest in a \$60,000 apartment building in Astoria.

Read Fading News Auto.

Automobile riding is no new thrill for her, although she may never have ridden in such an expensive limousine as Browning has placed at her disposal. Her father has a car.

Investigation revealed that she had been a motion picture actress. The book part in "Moby Dick" also, and eventually came to complete a girl's education.

Reorganization of State Government

Machold Scheduled to Head Commission to Plan Reorganization of State Government—Judge Clearwater Among Notables on Commission.

By Telegraph to The Freeman. Albany, Aug. 6.—A commission to plan for the reorganization of the state government, under the constitutional amendment which Republican and Democratic leaders expect will be adopted at this fall's election, will be organized in the near future.

H. Edmund Machold of Watertown, former speaker of the Assembly, is scheduled to be elected chairman of the commission.

Speaker Joseph A. McGinnies of the Assembly, and Senator John Knight, Republican leader of the upper house, in a recent letter to members of the proposed commission, suggested the election of Machold.

The proposal to reorganize the government, reducing 108 scattered bureaus and agencies into 21 main departments, was sponsored by Governor Smith.

The amendment, if adopted, not only will bring about a reorganization of the government but will reduce the elective state officials from seven to four. The four state officials who would be elected include Governor, lieutenant governor, attorney general and comptroller. The secretary of state, state engineer and state treasurer would be appointed by the Governor.

The commission to plan for the consolidation was suggested by Governor Smith, following the close of the last regular session of the legislature. The members of the commission were appointed by Speaker McGinnies and Senator Knight.

The fact the Republican leaders followed the suggestion of the Governor is taken as an indication they believe the proposed amendment is almost certain to be adopted by the voters.

Included in the membership of the commission are Elihu Root, Charles E. Hughes, U. S. Senator Wadsworth, U. S. Senator Copeland, Judge Alton B. Parker, former Governor Nathan L. Miller, Nicholas Murray Butler, former Judge A. T. Clearwater, Morgan J. O'Brien, Henry Morganthau, Dr. John H. Finley, former state commissioner of education, James W. Gerard, former Governor Charles S. Whitman, former Governor Benjamin J. Odell, Cornelius N. Bliss, James A. O'Grady, and George W. Wickerham.

A half dozen women have been asked to serve on the committee.

Evolution at Work In Sweet Cider

Jury Acquits Man Who Had Cider Containing Kick Because It Had "Evolved" Between Time of Seizure and Analysis.

By Telegraph to The Freeman. Washington, Aug. 6.—Another nature stood officially convicted today of violating Mr. Volstead's law.

The evolution of sweet apple cider is beyond the control of man, and the time required for it to evolve is a matter of conjecture, in which there are no precedents.

A jury in Judge McMahon's court rendered this decision in the case of Michael Eisenberg, in whose establishment was found some cider with a wicked kick in it. The dry agents did not analyze the cider until several days after its seizure and the defense contended the cider got unruly after it left Eisenberg's possession.

Elting Leader in Wadsworth Fight

A "keynote mass meeting" will be held by the Republican State Committee at Suffern, N. Y., on September 13, as the first move in the United States senatorial campaign of 1926, according to announcement made in Nyack Wednesday.

Nyack Evening Sun, by Philip Morris, prominent Republican, United States Senator James W. Wadsworth, Philip Elting and Charles B. Hill are among the announced speakers.

Letter Sent to Albany.

Joseph Kaimoski, who was arrested by State Trooper Metzger for loitering around the West Kingston backyard section and acting in a suspicious manner, has been sentenced to serve 30 days in the Albany Penitentiary by Judge Wether at Poughkeepsie, town of West.

Penitentiary For Dixon.

Calvin Dixon, who was arrested Sunday for beating Viola Dixon at East Kingston and injuring her, today was sentenced to 120 days in the Albany Penitentiary.

Downs Street Property Sold.

Frank S. Hyatt of the Ulster Realty Agency has sold to Stanley Lebert and wife for \$10,000, the property located at 124 Broadway street, this city. The Leberts have already taken possession of their new home. The Marshall's late moved to Bruyn avenue.

Miners Deplore But Prepare for Strike Sept. 1

Workers Would Prefer to Remain at Work and Support Their Dependents—Leaders Proceed With Strike Plans, Blaming Operators for Conference Failure.

By Telegraph to The Freeman. Atlantic City, N. J., Aug. 6.—The 185,000 hard coal miners of the United States do not want to strike September 1.

They want to stay at work and support the 800,000 dependent upon them.

The miners hoped they could reach an agreement with the operators. They haven't given up hope in spite of the crisis that has developed.

John L. Lewis, president of the United Mine Workers of America, made these statements in an exclusive interview with International News Service today.

"I regret," said Lewis, "that the wage negotiations with the operators were unsuccessful. However, no other result could be expected when representatives of the operators entered the conference under iron-clad instructions to concede nothing whatever to the miners."

Yet while Lewis was making this statement, preparations were going forward for the strike. Forty members of the union's general scale committee met at the Ambassador Hotel and authorized Lewis and other high union officials who have been conducting the negotiations with the operators to issue a strike order, effective September 1, in the event no agreement can be reached.

"The miners," Lewis continued, "must get a decent living wage. As I said, the miners must work and earn to support their families. They are dependent upon the anthracite industry."

"Idleness means a total loss to them. That is why we want a contract that will keep them employed. But we insist that they shall receive a fair wage. The coal companies deny it to them."

Lewis was asked what wages the hard coal miners make.

"They earn an average of less than \$1,700 a year. Where is the American citizen who will say that \$1,700 a year is too much to pay for the miner who risks his life far under the ground among the terrible dangers of the coal mine?"

"More than 500 anthracite coal miners are killed every year in accidents and more than 20,000 are seriously injured. Men who take these risks are entitled to a wage rate that will enable them to meet the ever increasing cost of living and lay aside something against misfortune and old age."

"There is nothing unreasonable in such demands. And they must be granted."

Lewis said it was the business of the United Mine Workers of America "to protect the interests of the coal miners of this country and the union proposes to live up to this duty in this instance just as it has in the past."

CRABTREE CLAIMANT FACES NEW CHARGE

By Telegraph to The Freeman. Boston, Mass., Aug. 6.—Mrs. Ida Manning Blankenburg of Tulsa, Okla., "daughter" of Lotta Crabtree and claimant of the late actress's \$3,446,990, in addition to facing a charge of perjury must also be prepared to meet one of obstructing justice.

Judge Frost in Suffolk county prolate court today made known the fact that Mrs. Blankenburg must face the obstructing justice charge. The case was put over until next Monday.

INTEREST RATE REDUCED BY BANK OF ENGLAND

By Telegraph to The Freeman. London, Aug. 4.—The bank rate was today reduced from five per cent to four and one half per cent.

This reduction is interpreted in London as reflecting the government's effort to stimulate by making money cheaper. It also is taken to indicate that the government is no longer worrying about the return to the gold standard or its ability to keep the pound at par.

Harlow's Return From Cooperstown.

Mr. and Mrs. Pouchery Harlow have returned home from Cooperstown where they visited the scenes described in Fenimore-Cooper's novel. Mr. Harlow is to make an address on that famous writer at the dedication of the new library at Cranford near Elmira.

Macomber Club Meeting.

The regular monthly meeting of directors and members of the Macomber Club will be held Friday evening at eight o'clock.

More Light—More Eggs

By using electric light to prolong the working day of the hen, successful farmers are greatly increasing their egg yield.

In the winter time when eggs command the highest prices, it has been found that it pays to equip the hen house with artificial light and let the hens scratch a few hours longer than they ordinarily do during the short days of the cold season.

Central Hudson service is now available in many parts of the Region not heretofore reached, as a result of extensive construction operations, and farmers are enabled to introduce many electric labor saving appliances not only in the home but throughout the farm plant.

Rural sections are co-operating in the program of extension by simplifying the night of way problem and by giving valuable assistance in the financing of such projects.

43 Radio Stations In One Night

Kingston Fan Learns Anew That "Early to Bed and Early to Rise" Jobs You of Many a Wireless Surprise.

Just to prove that the general notion that radio receiving is not practicable in summer is a delusion, a Kingston radio fan who felt in an indignant and experimenting frame of mind on Tuesday night tried to see what he could do, using an ordinary standard make. The net result for the evening was 43 stations brought in on a loud speaker, only two of them not with satisfactory volume and clarity. The stations were:

WABG, Port Richmond, WJ, New York.
WPG, Atlantic City.
KDKA, Pittsburgh.
WGBS, New York.
WBZ, Springfield.
WVCA, New York.
WTIC, Hartford.
WWJ, Detroit.
WLW, Cincinnati.
WGY, Schenectady.
WJZ, New York.
WEAF, New York.
WNAF, South Dartmouth.
WHN, New York.
WGN, Chicago.
WFI, Philadelphia.
WEAR, Cleveland.
WREO, Lansing, Mich.
WRNY, Cincinnati.
WRNY, New York.
WAM, Newark.
WRC, Cincinnati.
WCAU, Philadelphia.
WTAS, Elgin, Ill.
WHAR, Atlantic City.
WVLD, Mooseheart, Ill.
WEDH, Chicago.
WSE, Atlanta, Ga.
WHY, Chicago.
CKAC, Montreal.
WQF, Chicago.
WMBF, Miami Beach, Florida.
WNYC, New York.
WGX, Detroit.
WIP, Philadelphia.
KYW, Chicago.
WEEI, Boston.
WFAA, Dallas, Texas.
WOW, Omaha, Nebraska.
WMO, Memphis, Tenn.
WRC, Washington.
WCAE, Pittsburgh.

The two stations that were difficult to hear were at Dallas and Memphis. Stations at Lansing, Miami Beach, Omaha, Detroit and Chicago were the distant ones that were unusually clear and of good volume. It is needless to say that the fan who brought in the 43 stations given above did not retire when the curfew rang, although he was asleep before the brickyard whistles began to blow Wednesday morning.

MONTECATO HEIGHTS.

Montecato Heights, Aug. 6.—Mrs. Harriet Morosio, whose funeral was held in the Reformed Chapel here on Saturday, July 25, and who died on her 86th birthday, was a lifelong resident of this place and greatly respected. Several children, grandchildren and great grandchildren survive her besides a number of other relatives.

Mrs. Dan Green of Poughkeepsie, who was called to attend the funeral of her mother, spent a few days with her brother here.

Mrs. L. Van Elten and daughter received an announcement recently of the birth of a daughter to Mr. and Mrs. Harry Espeland of Elmhurst, N. Y. Mrs. Espeland was formerly Miss Ethel Case, who with her sisters spent several summers with the Van Elten family.

HIGHLAND.

Highland, Aug. 5.—"Squirrel Point" on the New Paltz road was visited by its owner and several friends from New York city over the weekend. They spent a few days most delightfully in the mountains.

Mrs. J. C. Leo of Maple avenue, is improving slowly after her illness. She is attended by a trained nurse, and now can sit on the porch for a short time each day. She and her family, also the Hovet families reside in New York city, but have a fine summer home on Maple avenue here.

The new busses seem to do quite a business. It seems strange not to see the trolleys running, but they perhaps will be a thing of the past.

J. P. Leo of New York city, is spending a few days at the Hovet home on Maple avenue.

Henry Hovet of New York city was a week-end guest with his family at their summer home on Maple avenue.

G. H. Mackey of this place, Mrs. Maria Harper of Clintondale, Captain and Mrs. R. H. Decker, with guests from Catskill, made a fine dinner party last Friday at the home of ex-Sheriff F. S. Decker in Catskill. These people motored there in Mr. Mackey's Willys-Knight car.

Mrs. A. Langdon of New Rochelle, is guest of Mrs. Bruyn and Mrs. Mallock on Grand street.

Last Wednesday was a gala day for the M. E. Church and Sunday school members and friends at Whittier's Grove. About 200 were present.

There were games, a supper, ice cream and other refreshments which all enjoyed. The day was perfect and all had a fine time.

"Hickory Holler School," which was given at Clintondale under the auspices of the Grange there, was successful. They played to a capacity house and realized a nice sum for the treasury of the D. of A. of this place.

Solomon A. Ferris, who has been ill for a long time, remains the same.

George Auchmoody is improving slowly, which is good news to his friends.

Gordon Kurtz of Jamaica was a week end guest of his parents, Mr. and Mrs. D. H. Kurtz, on Maple avenue.

Mr. and Mrs. H. W. Maynard were up to their camp on Tuesday.

Wednesday evening the Ida McKinley Council, D. of A., held its regular meeting with a large attendance and a very interesting session.

The new altar cloths add very much to the beauty of the room. The members are interested in the new ritual, the work being more impressive than before.

New marching and flag bearers all add to the attractiveness of the meetings. After the work the committee served all with delicious watermelon. The next meeting will be held on August 19.

Mrs. Fred Decker, who has had a very bad arm, the effects of a fall, is improving slowly.

The Presbyterian fair will be held on August 14.

Indian Point was the place where the Sunday school of Presbyterian people gathered recently. It rained some but that did not matter. All had a good time, fine sail, and they enjoyed it so much that they will go another season, everything favorable.

The new picture house will open here August 14.

Mr. and Mrs. Frank Palmer have returned from Monticello and Pleasant Valley for week end trips.

Mr. and Mrs. Vincent Jordan and Edward Paltridge and Miss Emma Paltridge, were out for a fine motor trip a few days ago and had a very delightful time.

Mr. and Mrs. John Goldt, have had recent guests from Long Island. Perry Hitchcock has returned from the hospital and is getting along fine, to the delight of his friends.

Orange Ingraham and Connie Gualis of this place have been on a week's motor trip and they report a very fine trip.

STUDEBAKER Standard Six Duplex Phaeton

\$445 Down

and 60 monthly payments of \$60 each

A Year Ahead of Its Time
The One-Profít Duplex—more up-to-date than the newest "yearly models"

THE Duplex Body, introduced by Studebaker in September, 1924, is a revolutionary new-type open car—with advantages open cars have never possessed before.

Within its steel-framed upper structure are concealed roller side enclosures which the driver may lower in 30 seconds without leaving his seat—giving instant protection from rain, snow, cold or wind. With equal ease the enclosures roll up out of sight.

So obvious are the advantages of the Duplex that Studebaker has become the outstanding leader in the open-car field among cars selling above \$1000.

Triumph of Studebaker Engineering

Other manufacturers will undoubtedly have to follow in Studebaker's footsteps. For any open car today without this unique advantage is obsolete.

But at the time this advertisement is written, Studebaker—and Studebaker alone—offers you this double convenience.

Another important engineering advantage pioneered by Studebaker is the use of genuine, full-size balloon tires, with steering mechanism, fenders and body lines especially designed for them.

Other manufacturers are gradually following Studebaker's lead—but remember, Studebaker developed this important feature 11 months ago.

On the Studebaker Standard Six Duplex.

Phaeton illustrated above, you'll find an automatic spark control, safety lighting control on the steering wheel, 8-day clock, gasoline gauge on the dash, improved one-piece windshield, special coincidental lock of ignition and steering gear, foot controlled cowl ventilator, completely machined crankshaft, oil drain valve which a girl can operate without soiling her hands, and waterproof ignition—all Studebaker features.

These are a few of the points which show that Studebaker cars are more up-to-date than the "new models" now being announced in dizzy succession.

And any automobile expert will tell you that new models of necessity are engineering experiments. Only after months of use in the hands of owners can all mechanical flaws be eliminated. Engineers are human—and it takes time to eliminate mistakes.

Thus, when you buy a Studebaker, you not only get a motor car that is completely up to date, but you also eliminate all guesswork and gamble. Your new car has been tested and proved satisfactory in the hands of thousands of owners.

Come in today—and see the One-Profít Duplex which has made all other open cars obsolete. It is called a "one-profit" car because all vital units are built entirely by Studebaker—thus eliminating the extra profits and overhead of outside parts makers which many other manufacturers must pay and include in the purchase price to you. This explains the fine quality and the low price.

THE WHY, WHEN AND WHERE OF FASHIONS

The Perfumed Earring Reappears.

From Paris comes the report that the latest thing in fashions is an earring filled with perfume, which slowly drips on the fair shoulders.

Only a few months ago scientists excavating the ruins of ancient Carthage—almost 3,000 years old, found similar earrings worn in those days by "vamps" who appreciated the influence of perfumes on men.

The venerable age of these Carthaginian earrings makes them old enough to be new again. Curiosities as to size, shape, or material in earrings do not start nor stop with these two dates. Charms and magic often played part, as, for instance, red coral in Italy where, during the past century, male members of a secret political society used to wear golden earrings as a lodge sign.

One of the still more curious novelties, but showing an execrable taste, was launched around 1880. It was a globe, perhaps one inch across, with miniature goldfish and seaweed inside. Earrings matched with bracelets, and necklaces are a revival of an old fashion.

Tabby's Rival the Owl

Owls are great mousers. A barn owl is literally worth its weight in gold to the farmer, will consume hundreds of rats and mice during the season, and do no harm at all. Among the owls there is almost no enemy to man, although the great horned owl may occasionally raid the henhouse, which depredations are more than balanced by their destruction of rodent pests.

Land of Bimini

The island or land on which, according to their ancient traditions, was located the fountain whose wonderful waters conferred on all who drank perpetual youth, was called Bimini by the natives of the West Indies.

FRECKLES

Don't Hide Them With a Veil: Remove Them With Othine.

Double Strength.

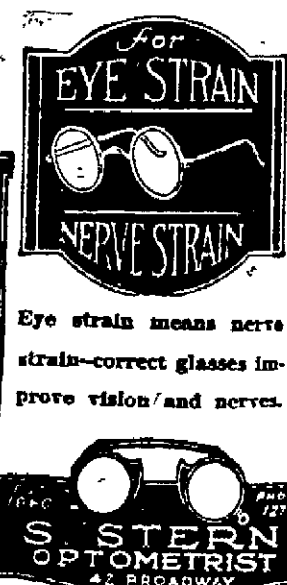

While preparation for the removal of freckles is so important in securing the best and lasting results, the removal of freckles with Othine is a simple and safe procedure. The freckles are removed by the use of a special cream which is applied to the freckled area. The cream is allowed to remain on the face for a few minutes, and then is washed off. The freckles are then removed, and the skin is left clear and smooth.

KINGSTON, N. Y., AUG. 8, 1925.

The German Nationalist newspaper that spoke of Mrs. Woodrow Wilson as an "unwelcome guest" at a health resort in the Black Forest, indirectly paid tribute to the part played by her husband in the fall of Germany. The editor, in fact, went so far as to say that as the wife of Woodrow Wilson she was partly responsible for "Germany's catastrophe." All the lunatic are not in strait-jackets.

The Philadelphia Record asks why America is so backward in the development of passenger air service after aerial transportation has become an accepted routine in Europe. Doubtless a part of the answer was given the day after the question was asked when an airplane crashed to the earth and killed its two occupants at the Pitsburgh aviation field in Philadelphia's suburbs. The American public seems disposed to wait until greater safety is assured.

A British ship paid off its crew in New York the other day, and the next morning every man came back sober and ready for work. The ship's officers attributed this phenomenon to the superior quality of present day sailors. "Unemployment in England," they said, "is driving a better class of men to the sea for a living; the companies can pick and choose." It is stated that the improved material can be more readily utilized because steamship work is much less specialized than that of the old-time sailor, requiring but a brief apprenticeship.

THE TIDE OF CRIME.

The prodigious development of crime in America, organized and widely ramifying on "big business" lines, is a world-wide scandal. A foreign Prime Minister said recently to a distinguished American: "With your passion to make laws, with your hunger to remake humanity by statute, how extraordinary to discover that you fail to abide by law or enforce law." The statistics clearly show that other leading countries, such as Great Britain and France, are dealing with crime successfully. The single city of Chicago has more murders and hold-ups annually than England and Wales put together. Crime is increasing by leaps and bounds in this country, and the needless American public contentedly goes about its business of money-making and buying expensive cars. But some part of the public is awake to what is going on. A few days ago a meeting was called to urge the formation of a National Crime Commission, whereat Governor Smith, Judge Gary and other disturbed persons of distinction were notified that criminal offenses are now multiplying in this country in a way "terrifying beyond expression."

The figures given in the first of a series of articles on the subject by Richard Washburn Child in the Saturday Evening Post are appalling. Among the causes of such conditions pointed out by Mr. Child are the piling up of misguided laws tending to beset diadems of all law, the pernicious ingenuity of criminal lawyers or legal sharpers, delay in legal processes, and adequate punishment in only about one case out of a hundred. He might well have added the notorious and disastrous loosening of ancient moral restraints owing to the vast spread of the belief that there is no God or hereafter, that morality is a mere human invention, that nature is an accident, that man is a more developed or refined beast descended or ascended from the lower animals. But Mr. Child does mention one cause that is usually overlooked—a recent and very fruitful cause. He depicts the view of a Chicago newspaper which "constantly has pointed out that the police are busy with prohibition and gambling, neglecting the public safety." And the greater this concentration, the greater the lack of police protection from crooks in general. It is estimated that this multiplication of crime is costing the country something like ten billions annually. As to what attempted enforcement of prohibition is costing, in spite of the concentration of police attention, there seems to be a discreet lack of official estimate.

What will or can a national crime commission do? All the students of the subject seem to regard the out-

look as pretty nearly hopeless. Yet crime is grappled with successfully in Europe, and it follows that there is at least one thing that can be done. Our national self-satisfaction stands in the way but should not be allowed to prevent. We can and ought to suppress our pride to the extent of studying Europe's methods and striving to apply them so far as possible on this side of the Atlantic.

ANOTHER DISCOVERY.

The announcement of a cure for scarlet fever, which is just as effective as antitoxin for diphtheria, will come as most welcome news to everybody.

Scarlet fever has not only carried off a great many children and adults, but has also left behind it, all manner of ailments that have been a source of danger and worry to patient and physician. Many cases of "organic" heart trouble can be traced to a simple attack of scarlet fever. The deafness from which so many children and adults suffer, can likewise be traced back to the "runny ear" which followed scarlet fever. Bronchopneumonia and acute kidney conditions often follow an attack also.

I remember a severe type of scarlet fever which was prevalent among the soldiers during the war. It attacked the heart, and although the scarlet fever ran its course in the usual manner, we were unfortunately able to tell some days ahead, that certain cases would not get better. The heart simply would not respond to any treatment whatever, despite the efforts of our best physicians, who were called into consultation on these cases.

As the writer of the article pointed out, the real heroes in this discovery are men and women who permitted themselves to be experimented upon. Once the real organism was isolated as the cause of scarlet fever, they allowed themselves to become the battle ground in the war between the organism and the curative serum.

This recalls the fact that the first human being to have insulin injected into him was Dr. Banting himself. I was certainly thrilled when Dr. Best, his associate, in addressing a small gathering, told us how Dr. Banting insisted upon this, as the only fair thing to do with such a new remedy.

Dr. Dochez who has made the discovery on the scarlet fever serum, after successful experiments, handed the serum over to Prof. Francis Blake, of Yale University, who likewise reports that the results have been almost invariably favorable, and that the only problem to be solved is the production in sufficient quantities.

It is said that the practical effects are startling, the symptoms disappearing within a short time, and then the recovery thereafter is very rapid. It will be a wonderful advance to have this dread ailment with its terrible complications put in the same category as diphtheria and diabetes, that is a "controllable" ailment.

NEW HURLEY.

New Hurley, Aug. 6.—Freston Atkins spent the last week with his parents, Mr. and Mrs. Tracy Atkins, at Clintondale.

Mr. and Mrs. Wilbur J. Van Wyck and Mr. and Mrs. Charles Jenkins are spending a couple of weeks' vacation camping in Maine.

Miss Dorothy Powell is entertaining Miss Esther Rose, one of her schoolmates while at Spring Valley. At the communion services last Sunday morning, four united with the church on confession of faith and three by letters from other churches. The pastor, the Rev. J. W. Taylor, will have two weeks' vacation and there will be no preaching services on Sunday, August 16 or 23.

Several from here attended the funeral of Mr. Dayton at Goshen on Monday. Mr. Dayton was the father of Mrs. Frank Van Wyck, formerly of this place.

Mrs. Carrie McCaulley of Marlborough is visiting at the home of her niece, Mrs. Eli Mackey.

Sunday school picnic will be held in the New Hurley grove on August 26. Any Sunday schools or anyone wishing to join this school in its picnic will be welcome.

Mrs. Isaac Sutton and daughter spent last Wednesday at the home of Mr. and Mrs. A. D. McKinstry.

LIVING ROOM FURNITURE

At Uncommonly Low Prices

\$155 to \$550

Although we frequently offer very unusual values in FURNITURE, it is seldom we have been able to present Living Room Furniture of the better sort at the substantial concessions we are offering this year. In addition to a complete clearance of 30 Living Room Suites on our floors at very low prices, we have made a special purchase of a line of odd pieces and these are one of our leading features. To appreciate the remarkable values you must come in and see the merchandise and note the prices.

DEEP-SEATED SOFA AND ARM CHAIR

Typical of the Extraordinary Values

Low and deep seated, with soft, yielding cushions and a graceful curved back, these two pieces embody a most comfortable type of construction—spring back and spring cushions resting on a spring base. They are most comfortably and properly upholstered and the coverings are plain or figured velour. Available in several different colors and combinations. An exceptional value that must be seen to be appreciated.

THIS SUITE TYPIFIES THE VALUES IN BEDROOM FURNITURE

\$150 to \$785

Simplicity of design, always desirable in Bedroom Furniture, characterizes this suite, which is but one of 37 bedroom groups of great charm and little price we are showing. Every suite offered is an excellent example of good design and good value. And the prices are nearly one-third less than we have been selling the same merchandise.

Today We Celebrate

ELIZABETH CIRANI.

Elizabeth Cirani was a native of Bologna and was eminently distinguished as a painter.

Although she was happy in tender and delicate subjects, she excelled also in the great and the terrible. Her genius gained her many friends, whom her excellent qualities retained. She died near the close of the eighteenth century.

SEA SERPENTS.

Since the days of the first seafarers who peopled the ocean with mermaids—and merman as well—as well as with awful monsters, the belief in sea serpents and similar marine wonders has been firmly held by many mariners. In modern times sea serpents were reported to have been seen along the coast of the United States and Canada in 1806, 1844 and 1846, and in the latter year similar creatures were reported to be prevalent along the Norwegian coast. The first case which attracted any credence among scientific men, however, was the report of Captain McQuibb, of the British Obedience, who declared that on August 6, 1848, while on route from Cape of Good Hope to St. Helena, he and his men saw a strange monster

of great size, having many characteristics of the sea-serpent of the popular imagination. After long discussion, however, the scientific world decided that the "serpent" was a species of seal inhabiting the South Seas.

ANNIVERSARIES.

Ben Jonson, the celebrated English dramatist, died on August 6, 1637. He was a contemporary and friend of Shakespeare, and himself an active and able writer, most successful in satirical comedies. The Virginia Gazette, the first newspaper to be issued in Virginia, appeared at Williamsburg, in that state, on August 6, 1736. It was also on this day in the year 1759 that Eugene Aram, made famous in one of Bulwer's novels, was executed. Aram attempted suicide by the old Roman method of opening a vein, but was discovered before he bled to death.

On this date in the year 1884, there was severe political disturbances in Belfast, Ireland, stirred by the Nationalists and Orangemen. After the police and troops were called out, they were attacked by the mob, and eight persons were killed and one hundred wounded. The rioting continued for several days.

Daddy's Evening Fairy Tale

Mary Graham Bonner

NATURELAND NEWS

Billie Brownie had just finished getting out a copy of Natureland News, printed on Fairyland Birch Bark. His brother, Bennie, had helped him get out the copy on time, for that evening there was going to be a supper party at Old Witty Witch's Cave, and before the supper Billie had promised to get out the Natureland News so he could read it aloud to everyone.

A Particularly Favorite Teacher. He finished just on time and he and Bennie traveled in haste to the party.

The guests were all there. The Fairy Queen, Fairy Princess Ybab, Fairy Princess Twilight-Bell, Fairy Wondrous Joy, Fairy Wondrous Secrets, Fairy Merriment, Fairy Playtime, the Fond Fairy, Elsie Elf and other members of the Elf family, Peter Gnome and the other Gnomes, the rest of the Brownies, all the members of the Hodgey and Oaf families, and Old Mr. Giant and all the rest of the Fairies.

Billie began to read at once and these are the items of news he read: "Miss Lucy has got hold of the Forgetting Habit. There are a number of copies of the Forgetting Habit around and she has one. If she will summon Count Concentration to her aid she may be able to get rid of Forgetting Habit. Count Concentration understands how to do this. Miss Lucy at present can't remember her lessons even after she has read them over."

"Mr. Long-Tailed Monkey from Africa has been named String-Bean Joe. He eats them all the time. When he came over from Africa on his way to the zoo he stopped off with his owner at a hotel. He refused to eat the food brought to his room, but one evening when his owner was having his dinner in the room, the monkey saw string beans on the plate.

"He hopped and jumped over and ate them all, and so they discovered that he liked them."

"As he is a rare monkey they want to give him what he will thrive on, and he certainly does love string beans."

"So they call him String-Bean Joe, as Joe was the name he arrived with before the others were added."

"Joe is black and white and his tail is very long. There is not another monkey like him in the zoo."

"General Sparrow ordered a new battle yesterday. The Sparrows all obeyed the order."

"The May Fields are at their best and are willing to entertain at a hay ride any time now."

"Worms are scarce in the barnyard. The roosters and hens are not at all pleased. If things don't get better, and by things we mean worms, we will have to give our patronage elsewhere," they say.

"We cannot remain where we get poor service."

"Teny went to spend the night with little Mahalia last week. Let me know if you go to sleep first," Teny said.

"Mahalia said: 'Yes, I'll tell you. They kept on asking each other: 'Are you asleep yet?' Finally they both forgot to ask."

"In the morning neither knew who had gone to sleep first. Neither one had announced the fact when it had happened!"

"Melly has a particularly favorite teacher. She is very strict. Melly says, but very just. She is fair to everyone, and Melly doesn't mind her strictness as she is so just."

"Desmond, the yellow and black kitten, plays wildly with two discarded dolls which have been given to him to do with as he likes. He chases them about after he has tossed them ahead of him. He scratches the furniture and wakes up the members of the family by pulling the blinds in their rooms in the morning and letting in the light."

"And this is all of the News for now."

"A very interesting number," they all said, and spoke about different items of news.

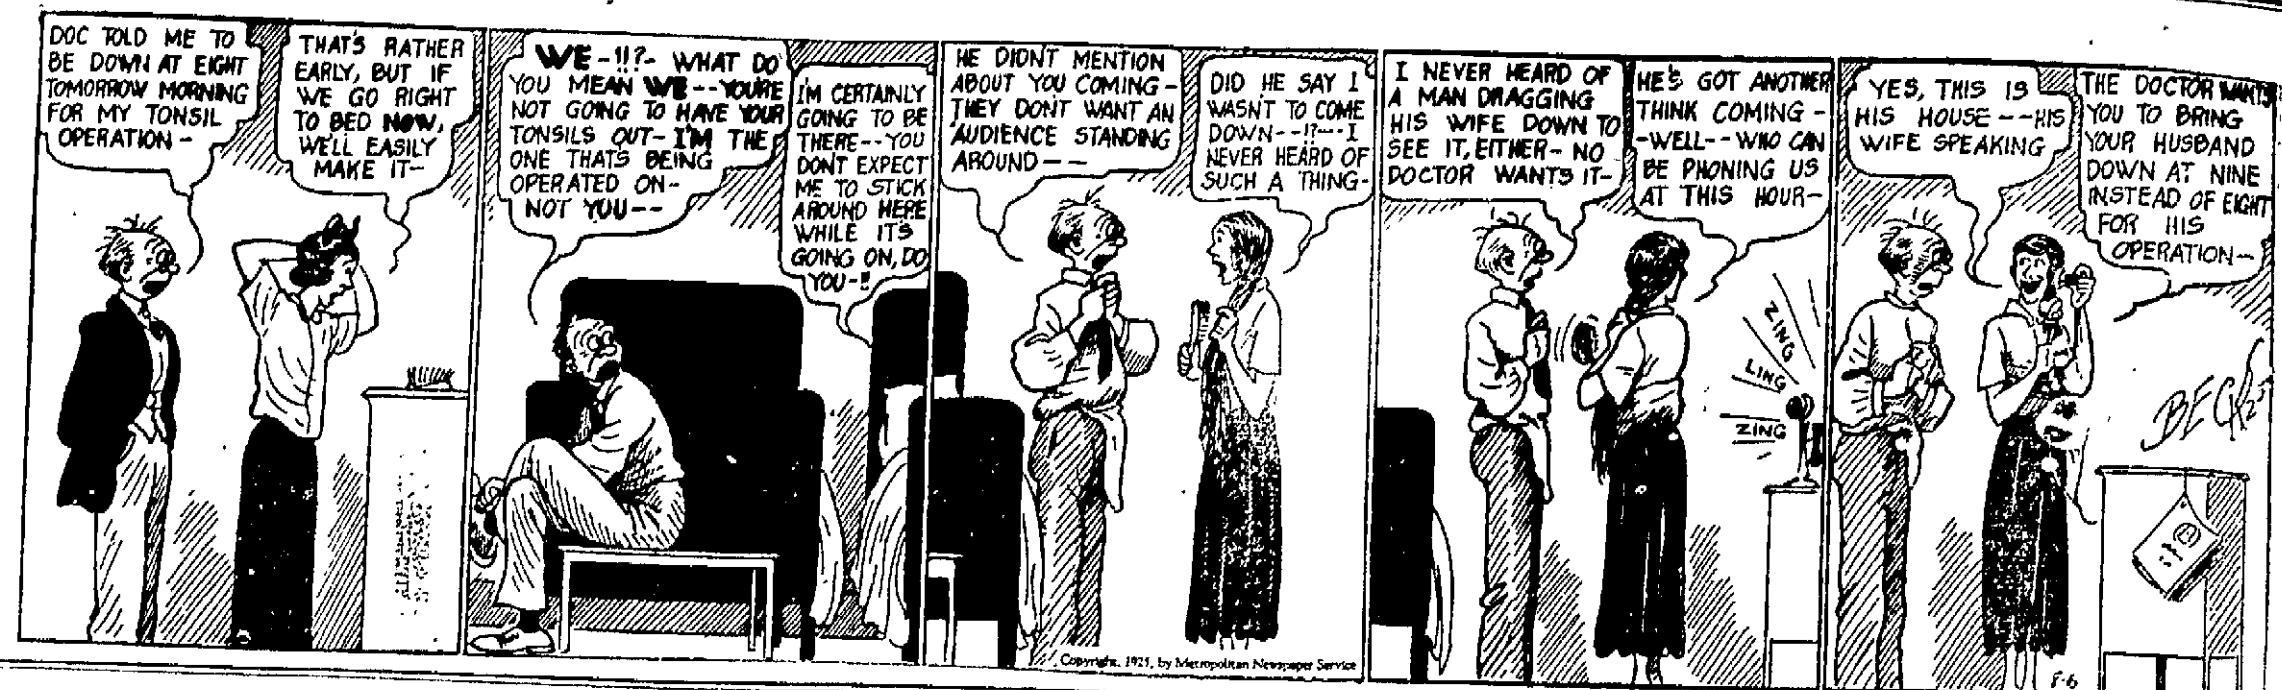

Then Witty Witch had one of her famous suppers and later they all danced under a wonderful mid-summer moon.

GAS BUGGIES—Where There's a Will There's a Way.

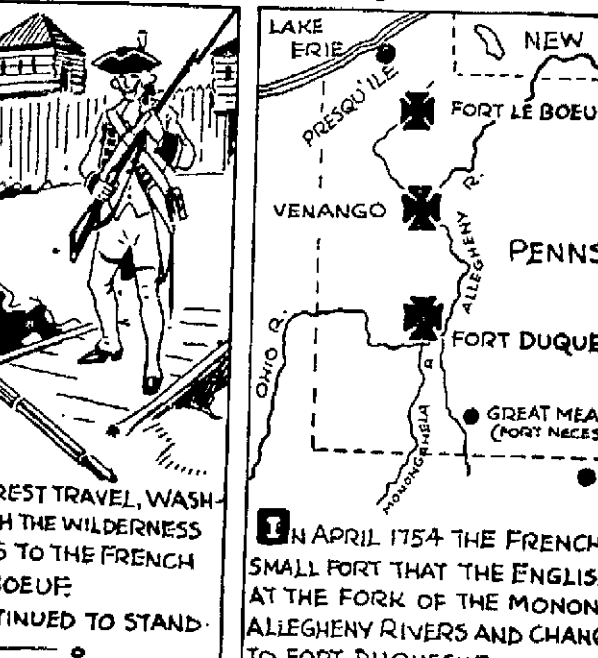

HIGH LIGHTS OF HISTORY

LEARNING THAT THE FRENCH WERE FORTIFYING ENGLISH SOIL, GOVERNOR DINWIDDIE OF VIRGINIA SENT A BRAVE YOUNG SURVEYOR, LATER TO BECOME FAMOUS, WITH A MESSAGE WARNING THEM TO LEAVE THE TERRITORY. THIS YOUNG SURVEYOR WAS GEORGE WASHINGTON.

Washington Bears A Warning To the French.

by J. CARROLL MANSFIELD

BEING ACCUSTOMED TO FOREST TRAVEL, WASHINGTON MADE HIS WAY THROUGH THE WILDERNESS AND DELIVERED HIS MESSAGES TO THE FRENCH AT VENANGO AND FORT LE BOEUF. THE FRENCH, HOWEVER, CONTINUED TO STAND THEIR GROUND.

WASHINGTON, NOW A LIEUTENANT-COLONEL, WAS SENT TO AID THE FORT BUT AT WILLIS CREEK, MARYLAND, MET THE GARRISON RETREATING. WASHINGTON PRESSED ON WITH A SMALL FORCE AND CUT A ROAD FROM WILLIS CREEK TO GREAT MEADOWS, FIFTY MILES AWAY. TOMORROW—WASHINGTON AT GREAT MEADOWS.

The KITCHEN CABINET

(By 1925, Western Newspaper Union.)
The first lesson in life is to burn our own smoke; that is, not to insist on outsiders our personal sorrows and petty morbidities, not to keep thinking of ourselves as exceptional cases.—James Russell Lowell.

RECIPES WE WILL CHERISH

The old English recipe for peach or plum cheeses may be used for any fruit cheese. Put the fruit into a large casserole or bean pot, adding one-half cupful of granulated sugar for each quart of fruit and bake in a slow oven until very soft. Let cool slightly, press the pulp through a colander with a wooden spoon, or potato masher. Measure the pulp and add one cupful of sugar to each two cupfuls of pulp. Cook over a slow fire, stirring until the mixture is thick. Pour into glasses and cover with paraffin. Keep for three or four months before using. Used as sandwich filling, as garnish for puddings, or cut into cubes and rolled in powdered sugar, they may be served as condiments, or with a custard sauce in individual portions, as a dessert.

Home-Made Yeast.—Boil and strain one level tablespoonful of hops in a pint of cold water. Throw away the hops and reserve the water. Add two small potatoes mashed, one teaspoonful of salt, the same of ginger, and enough flour to make a thin batter. Cook until well blended, cool and add one yeast cake. Put into a bowl and set away in a warm place for several hours, until it shows bubbles, then pour into a mason jar (only half fill it), cover tightly and let stand one or two days in a cool place before using. This yeast will keep ten days or more but is best used the first week.

Cream of Almond Sauce.—This sauce is especially delicious served with ice cream or cold puddings. Blanch, chop and brown two ounces of sweet almonds and one ounce of butter. Put both through a meat grinder and grind fine. Mix with a cupful of powdered sugar and beat in one cupful of thick cream.

Lobster Salad.—Cut the boiled lobster into even-sized pieces. Marinate with a good French dressing, add an equal amount of finely minced celery and two or three small green onions chopped; mix with a good, well-seasoned boiled dressing and serve on lettuce. Shredded lettuce may be added just before serving. Garnish with the meat from the claws.

Me Chased Them About.

Spanish Armada
The Spanish armada, the great fleet sent by Philip II of Spain against England in 1588, consisted of at least 130 vessels, which carried 18,235 soldiers and 3,400 sailors, in command of the duke of Medina Sidonia.

"Leave to print" has its value after all. A bad boy in a juvenile court was spanked with a copy of the Congressional Record.

There's always room for a good man except in the sock his young wife mended for him.

Where does the West begin?
Out where the booting's a little stronger.
Out where the hair grows a little longer.
Where the talk is loud and runs to boast.
And to press your pants is a crime, almost.
Where the laugh is loud and the manners rude.
And to shave your neck marks a man a dude—
That's where the West begins.
But—where does the East begin?
Where the adverbs are shallower and the bills are flat.
And a man is judged by his coat and hat.
Where the women boss, and the men-folk think
That coast is food and tea is drink

Where the men use powder and the wrist watch ticks,
And everyone else but themselves are hicks:
That's where the east begins.
Now east is east and west is west.
They each have some bad and they each have some best.
For it isn't a matter of lines on a map
That makes a guy regular or makes him a sap.
The folks out west may run to brag,
And the knees of their pants may sort of bag;
But there's many a guy in the boundless west
With a heart as staunch as his leather vest.
And there's many a guy in the east, by heck,
Who's got good nerve and a little edge and soul—
If he does mess around with a finer bowl.

Schillings Lost To Universals

The Universal Road Machinery Company mixed things up with the Schilling Furniture Company and handed the furniture makers a trimming to the score of 6 to 4.

The Universal team started things off in the second frame when five trips were made around the sacks. Again in the fourth inning the road machinery builders gathered in another marker.

The furniture makers started in the opening inning to chalk up a lone tally. The second frame held another score for the Schilling team and two markers were scored in the fourth inning.

DuBois was on the mound for the Universal aggregation and allowed the furniture makers to collect seven safeties, handed out six free trips to first and retired three batters by the strikeout route.

Connolly was the pilot for the furniture makers and seven hits were handed out by him. He gave three passes to the initial sack and fooled six.

Jacoby, the second sackman for the Universal team, was in the line-light on the offensive. He landed a circuit clout out to left field, scoring the only tally for his team in the fourth frame.

Colonials Blank Port Jervis, 9-0

Eddie Baker Again Hurls Pretty Game Easily Downed Port Jervis Outfit at Lateral's Field—McCue and Kinney Led The Hitters.

Port Jervis fans who had been anticipating the Port Jervis-Colonial game with about the same fervor that the local fans had looked forward to the Colonial-Brooklyn game found on Wednesday that the Ulster county aggregation were everything that they were cracked up to be for the locals knocked all sorts of hits loose, a total of thirteen safety walks for a 9 to 0 win over the Orange county outfit at Port Jervis.

Eddie Baker performed for the locals giving the Port Jervis team a mere five hits. Not once did the Klugston twirler find himself in a risky position for only two enemy stickmen were allowed any further than second. Three of the Orange county hits were doubles but all came with two outs which left little chances for scoring. Eddie drove two of the locals in with his stick, sending out a triple in the second frame with two on.

Both McCue and Paul Kinney connected for three safeties in four times at the plate. Paul getting one double and Bernie two doubles. In the fifth inning Bernie slammed out a circuit clout scoring the locals' eighth marker.

The locals big frame was the second when a total of five markers were piled up by the Ulster suckers. McDermott started the second with a single to center and went the rest of the way around on McCue's double. Schwab sent Mac to third on a single. Robins flied out and Kinney scored McCue with a single. Baker slammed out a long triple between right and second and Schwab and Kinney scored ahead of him. Eddie came in when Peters grounded out to second.

George McBride Helps Ty Cobb

George McBride, former manager of the Washington team, and now assistant to Manager Ty Cobb of the Detroit Tigers, has been of great assistance to the aggressive pilot this year.

Cedric Durst Stars

Cedric Durst, former St. Louis Brown outfielder, is now playing a mighty clever game for the St. Paul team of the American association. It is more than likely that Manager Stiller will recall this young star this fall.

Connie Mack Was With

Meriden Team in 1884

Cornelius McGillicuddy, or "Connie Mack," as he is known in the baseball world, was born at Brookfield, Mass., December 23, 1862. He played with Meriden in 1884, Hartford in 1885 and 1886, Washington from 1886 to 1890, Buffalo in 1890, Pittsburgh from 1891 to 1896, being manager from 1894 to 1896; was manager of the Milwaukee club from 1897 to 1900, and has been manager of the Philadelphia Athletics since 1901.

Thus Connie Mack, now sixty-three years old, is managing his twenty-fifth American league team this season. In his playing days he was a catcher.

Charlie Comiskey Drew

Highest Baseball Pay

Charlie Comiskey, now president and owner of the Chicago White Sox, in the '80s and '90s was the highest-paid player in baseball. As a first baseman and manager Comiskey was paid \$1,093.33 by Chris Von Der Ahe, owner of the St. Louis Browns, each month. When he took the management of the Cincinnati club in 1892, John D. Brush paid him considerably more than that amount, and he was the highest salaried manager of his time. Anson of the Chicago club was a high-salaried player-manager, but his wages were less than the amount Comiskey received.

ONE-BASE HITS

(BY JACK SIMPSON)

Fairly Batted Ball.

The confusion arising over the question of whether a batted ball is fair or foul can be overcome by applying the following simple rule.

"A legally batted ball that settles on fair ground between home and first base or home and third base or is on fair territory when bounding to the outfield or hits the person of a player or umpire while they are on fair territory is a fair ball."

The above rule covers every ball that is hit regardless of how complicated the situation may seem.

A line drive hitting the pitcher's slab and bounding back on foul territory between home and first base or home and third base is a foul ball because it hasn't reached the base.

A batted ball that hits the ground on foul territory but re-enters the diamond and stays there is a fair ball. A ground ball passing to the outfield on fair territory may roll outside the foul lines beyond first or third base and would make that a fair ball.

All batted balls that hit the first or third base are fair regardless of where they roll. It will be noted that all of the above cases are clearly defined by the rule.

Tagging Major League Bases

The Phils had a one run lead with two out in the ninth when Wrightstone dropped Grimm's easy fly and two runs eased over the plate, the Cubs winning 7-6.

In a seance of free hitting, the Cardinals clubbed Genewich and Kamp and won their fourth straight by manhandling the Braves, 14 to 2. Bottomley getting his 18th homer of the season. Smith, Card outfielder, achieved an unassisted double play by snaring Gautreaux's fly and touching first ahead of Genewich.

The rest of the schedule was washed overboard by rain.

Blackberry Winter

Blackberry winter is a cool spell, which is supposed to come every year when blackberries bloom. It is a very old belief and how it started is unknown.

Financial and Commercial

By Telegraph to The Freeman.

New York, Aug. 6.—Spectacular advances in a small number of industrial and public utility stocks featured today's stock market. There were, however, reactionary developments in other sections of the market, particularly in oil stocks.

Bullish traders circulated reports that the directors of the Federal Reserve Bank of New York would reduce the rediscount rate of the bank after the close of the market, following the action of the Bank of England in lowering the rate from 5 to 4 per cent. Heretofore the British Institution has followed rather than preceded New York in such changes, and it was generally felt that the time was propitious for a decline in borrowing rates here. Call money was in good supply at 4 1/2 per cent. Montana Power and American Can, the leaders in today's spectacular movements, made their most effective displays in the first hour. Montana Power was helped along to its new high price of 99 1/2 by rumors of a very attractive "merger deal" with Electric Power and Light. Shorts were driven to the wall in this stock as well as in American Can, which established a new high price record at 217 1/2. Coca Cola reached a new high at 146 for a gain of about five points.

Trading slowed down after the noon period. Independent Oil and Gas dropped 3 points, while Pan-American staged a moderate recovery. Sinclair slumped down to 20 against last month's high at 24 1/2. Mid-Continent was 29 1/2 compared to its recent high at 36, and Phillips at 40 1/2 against 47 1/2. Marland was also reactionary.

DEMPSEY IS BOOED
AT LOS ANGELES RING.
By Telegraph to The Freeman.
Los Angeles, Aug. 6.—Jack Dempsey was smarting under a new worry today, following his introduction here last night at the ringside at the opening of the new \$1,000,000 Olympic boxing auditorium.

The heavyweight champion was hissed and booed most of the time he was in the ring by many of the 16,000 spectators. Cries of "bring on Harry Wills" filled the huge arena, causing Dempsey to flush.

Dempsey, looking pale and tired, made his appearance in evening clothes.

Strange Requests
The bequest of his body to a hospital by a certain gentleman to help in the discovery of the origin of headaches, reminds us of the following strange requests: A certain philosopher directed that his skeleton should be clothed, provided with a specially molded wax head, and presented to the medical section of a London university where it may still be seen.

Chestnut Hill Party Friday

The lawn party for the benefit of St. John's Church will be held Friday evening, if fair, at the residence of Mrs. George Washburn on West Chestnut street.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Mrs. Helen McLaron Abbott died suddenly on Tuesday evening at the home of her son, Charles R. Abbott at Saugerties. Mrs. Abbott was seized with an attack of acute indigestion and before a doctor reached the home she expired. She was in the seventy-seventh year of her age. Funeral at the late residence on Friday afternoon at 3 o'clock.

Mary Deyo, widow of Andrew Rea, died in New York city August 3, after a short illness. Her husband was buried seven weeks ago. Her remains were brought to this city this morning and interred in the family plot in Wiltwyck Cemetery. She was a loving Christian woman and will be greatly missed in her home. She leaves two daughters and a sister and brother.

The funeral of Ellen E. White, daughter of Mr. and Mrs. Joseph White, was held from the late home, 60 Deyo street, Wednesday at 2:30 and was largely attended. The floral tributes were many and beautiful, testifying to the high esteem in which she was held. The services were in charge of the Rev. A. S. Cole, pastor of the Albany Avenue Baptist Church. The bearers were members of the family and the interment was in the family plot in Montrose Cemetery.

John R. Beesmer, age 64 years, died at his home in Krumville July 29. Funeral was held at the Krumville Church Friday, July 31, at 2 o'clock. Interment in the Krumville Cemetery. He leaves a wife and eight children, Mrs. Alvin Markle, Mrs. William Holthof, Asa Beesmer, Mrs. Levi Chispeil, William Beesmer, Mrs. Charles Jansen, Mrs. Ernest Miller and Mrs. John B. Davis, two sisters, Mrs. A. Avery and Mrs. C. Bell; one brother, Isaac Beesmer, and 11 grandchildren.

Miss Frances Burnett died Wednesday at her home, Ulster avenue. Saugerties, following a very brief illness. She is survived by her parents, Mr. and Mrs. Isaac Burnett, two sisters, Elizabeth and Ida M., and four brothers, Alfred, William, John and Millard. Miss Burnett was a member of the Baptist Church and also a member of Queen Ulster Rebekah Lodge, No. 31. She was in the forty-first year of her age. Funeral at the late residence on Sunday afternoon, the Rev. R. P. Ingersoll of Mt. Tremper officiating.

Arthur D. Fowler, for many years a marine engineer on the Hudson river, died suddenly in the yard of his home at Port Ewen on Wednesday. Death was due to heart trouble. He was in his 78th year. Mr. Fowler for a number of years was employed as chief engineer on the tugboat Columbia and other vessels of the Cornell Steamboat Company and during the many years he followed the river he became widely known. He was held in high esteem by all who knew him and news of his sudden death came as a shock to his host of friends. He is survived by four sons, Oliver G., Arthur and George Fowler of Port Ewen, and Robert Fowler of Union Center, and three daughters, Mrs. Sarah Butler of Rhinebeck, Mrs. Edith Dean of Port Ewen and Mrs. Susan Lampman of Glens Falls. The funeral will be held privately Saturday afternoon at 2 o'clock from the home of his son, Oliver G. Fowler, in Port Ewen. Interment in the family plot in Port Ewen Cemetery.

George A. Keyser of Prospect street, who was electrocuted while at work on the Hutton Company brickyard at Kingston Point Wednesday afternoon, is survived by his wife, Mrs. Viola Kukuk Keyser, daughter of Mr. and Mrs. William C. Kukuk, of No. 167 Tremper avenue, a two year old son, his parents, Mr. and Mrs. Charles Keyser, of Roxbury, N. Y., and a brother, Harry Keyser, of Grand Gorge. Deceased was a member of the First Presbyterian Church and saw active service during the World War. He was a member of Charles DeWitt Council, J. O. U. A. M., and of the American Legion. He was employed by J. A. McNellis & Company as an electrician and had been sent to make some repairs to an electrically driven shovel at the brickyard. Before starting work he had removed the plug which turned off the electric current. After working for some time he asked some men nearby to replace the plug. They did so and he leaned over to inspect the work he had done. The men saw him lean over and then suddenly he straightened up and fell to the ground. They rushed to his side and found he was dead. He had either touched the high tension wire or his head had come in contact with a charged part of the shovel. Dr. A. A. Stern was called and Coroner W. Norman Conner notified. They examined the body and found a mark on the top of the head. Whether it was caused by the electric current or from the fall to the ground was not determined. The funeral will be held from the home of his father-in-law, William C. Kukuk, on Tremper avenue, on Saturday afternoon at 2:30 o'clock.

A Permanent, Lucrative Business Connection For High Grade Men

A New York Investment House, handling securities of the better class, has exceptional openings in the states of New York, New Jersey and Connecticut for energetic men to go into business for themselves as Investment Securities Dealers. Experience in this business is not at all essential, because every selling assistance will be provided to assure a profitable and permanent business for men we select. These men must be possessed of good education, perseverance and an earnest desire to establish themselves in a business of high character, through honest, conscientious effort. To such men, we offer a dealer's contract that should make the connection a profitable one from the start, with future earning possibilities of \$10,000 a year, and upward. Sales' experience is desirable, but any active men of good standing and forcible personality will be considered. A man of integrity who acquires a thorough knowledge of investment securities has practical assurance of financial independence, an outstanding position in the affairs of his community and an entrance to the centers of big business. The connection we offer is a stepping stone to such a future. No investment is required, but applicants must be in a position to finance themselves until ability is proven. In replying, give past history and references, in strict confidence. Address "Finance," care of Metropolitan Advertising Agency, 111 Broadway, New York City.

Professional men and others already engaged will find this an unusual opportunity and a very desirable means of increasing their earnings in spare time, and connections of this character will be considered.

Zambesi Falls Called Inferior to Niagara

The Victoria falls are located on the Zambesi river, in Rhodesia. They are more than twice the height and somewhat wider than Niagara falls. The native name is Musi-on-tunya—"Thundering Smoke" or "Smoke Does-Sound-Here."

The Zambesi, one of the four great rivers of Africa, is more than 1,700 miles in length and carries an enormous volume of water, so that the falls are a magnificent spectacle at any time of the year. But this volume of water is not as great as that which pours out of our lakes, and it is in this respect that the Victoria falls are inferior to Niagara.

The African cataract is divided by islands so that it forms four falls, two wide and two narrow. Near the right bank of the Zambesi is the Leaping Water, a fall 108 feet wide; then Boaruka Island; then the main fall, 1,419 feet wide; then Livingstone Island; then the Rainbow fall, 1,905 feet wide; then another island; and finally the Eastern cataract, which resembles the Leaping Water.

The Victoria falls occur where the Zambesi is at its widest. They fall over an edge which is almost vertical, but instead of falling into an open basin as Niagara does, they drop into a chasm the opposite wall of which is only 80 by 240 feet away. The outlet of all this water is a gorge 300 feet wide, which leads a little farther on into a Grand canyon 40 miles long.

The falls were discovered by David Livingstone on November 17, 1855. They are on the route of the Cape-to-Calcutta railway, and a bridge 650 feet long has been constructed across the canyon some distance below the falls.

Colors on the Screen

For two hot hours recently, says the London Daily Mail, a large audience sat in darkness in Queen's hall, Langhame place, while Thomas Wilfred demonstrated his invention, the clavier.

Before the screen was a boxlike apparatus divided into four sections, each containing a number of keys. The performer, by merging basic colors, blue, green and red, obtained beautiful shades and designs, also "building up" scenes resembling all-houettes, save that coloring was the basis of the pictures.

He then merged the blue, green and red shades upon the screen, which appeared purely white, but, walking between the instrument and the screen, he "broke the continuity" of the scheme and the separate colors could be seen reflected.

Laurel With a History

What was perhaps the oldest laurel bush in France has just died in what remains of a once beautiful Paris garden. The laurel was one of a group sent by Louis XIV to Marshal Turenne, victor of the battles of Fribourg and Nordlingen. It came from the royal gardens of Fontainebleau. Turenne's handsome country home was in what is now the boulevard de Montparnasse, hidden from the public view by the tall houses bordering the street. It was built by Mansard, the architect whose fine facades give such dignity to the Place de la Concorde. The house has been occupied recently by the engraver, Leopold Flameng, father of the late painter. He watched over the ancient laurel's last years. A young sculptor of the quarter is going to use the wood for a statuette of the illustrious marshal. It will be sent to the army museum at the Invalides.

Question?

"I say, doctor, did you ever doctor another doctor?"

"Oh, yes."

"Well, does a doctor doctor a doctor the way the doctor doctor wants to be doctor, or does the doctor doctor the doctoring doctor the other doctor in his own way?"

so and he leaned over to inspect the work he had done. The men saw him lean over and then suddenly he straightened up and fell to the ground. They rushed to his side and found he was dead. He had either touched the high tension wire or his head had come in contact with a charged part of the shovel. Dr. A. A. Stern was called and Coroner W. Norman Conner notified. The funeral will be held from the home of his father-in-law, William C. Kukuk, on Tremper avenue, on Saturday afternoon at 2:30 o'clock.

Bethlehem Not To Reorganize

By Telegraph to The Freeman.

New York, Aug. 6.—No general reorganization of the Bethlehem Steel Corporation will follow the retirement of three prominent vice presidents of the corporation. While Wall street was surprised at the announcement of the retirements of Vice Presidents Archibald Johnson, H. S. Snyder and William M. Tobias, it was said at the New York office of the corporation today that these resignations were without significance in relation to the general operations of Bethlehem Steel.

None of the other big steel manufacturers contemplate reductions in the executive personnel, either for reasons of economy or co-ordination of their operations, so far as could be learned here.

The acquisition of the Lackawanna Steel Company in May, 1922, and of Midvale and Cambria Companies in March, 1923, imposed special financial burdens on the Bethlehem Corporation, which in the opinion of many shrewd Wall street leaders are still far from solution and it is believed that Bethlehem is grappling with financial problems, including a bonded debt of \$237,000,000 which are peculiar to that company and not shared by the other steel companies.

DRY AGENTS OPERATING AT SARATOGA SPRINGS

By Telegraph to The Freeman.

Saratoga Springs, N. Y., Aug. 6.—Prohibition agents from the Albany office were here today to keep sharp watch for violations of the dry law.

The United States Hotel, headquarters for the wealthy who are here for the races, was raided by the dry agents late yesterday. The raiders entered the barroom shortly after the races closed and seized what they claimed to be seven bottles of whiskey. The bartender was arrested.

Two Theatre Companies Incorporated.

A certificate of incorporation has been granted by the secretary of state to Miller & Sherry Theatres, Inc., of Kingston. The capital stock is \$2,000, consisting of 20 shares of \$100 each. Also a certificate of incorporation has been granted to West Shore Theatres, Inc., having a capital stock of \$1,000 consisting of 10 shares of \$100 each. The principal office will be in Kingston. Shareholders and directors in each corporation are Isaac Miller, 221 Tompkins street, Brooklyn; Philip Sherry and Iva Sherry, 197 West Chestnut street. The purposes for which the corporations are formed are to purchase, lease, own and manage theatres and moving picture houses, etc.

LABOR DEMANDS PROBE OF TELEPHONE INDUSTRY

By Telegraph to The Freeman.

Lowell, Mass., Aug. 6.—Charge it with being a "gigantic monopoly" an investigation of the telephone industry and the rate boost granted the telephone company was demanded in a resolution adopted today by the state branch, American Federation of Labor.

Speakers criticized the granting of the increase and advocated election of members of the public utilities commission by the people.

Wiscoski Gets Ten Days.

John Wiscoski was arrested Wednesday night by Officers Brophy and Relyea charged with disorderly conduct and intoxication. At a hearing before Judge Coughlin in the city court this morning a neighbor appeared against him and stated that at several times he had tried to break in his house and that he and his wife had been continuously annoyed by him. Wiscoski pleaded guilty and was given ten days in the Ulster county jail.
